## **Application Components**

Through Egrants, you will provide WEM with detailed information about your project that will be used to make a funding decision. Questions on what is expected in each section can be directed to Michael Jordan at (608) 242-3335 or at [Michael.Jordan@wi.gov](mailto:Michael.Jordan@wi.gov).

### **1. Main Summary**

This page asks for information about your agency and the individuals responsible for the application and grant award. There are many required fields on this page so if you encounter problems, please check online help by clicking the floating HELP button. Please note: When identifying individuals involved in this grant, you may not list the same person as project director and financial officer. The financial officer is the individual responsible for financial activities in your organization while the project director will be overseeing project operations.

In the Brief Project Description text box, please describe your project in 150 words or less. A suggested format is included for your convenience:

“Funds will be used by the (your agency name and others involved in the project) to (describe what funds will be used for and who will be involved). The (what - equipment, training, project, pilot, etc.) will (describe the specific goals you hope to achieve – how will the project or equipment improve safety in Wisconsin?) [If appropriate, add which area(s) of the state will benefit]”

Responses to this section will be used on the WEM website, cited in WEM reports and could be mentioned in press releases. Plain language that clearly describes the intent of the project is most effective.

## **2. Approval Checklist**

Answer Yes, No, or N/A (not applicable) to each question.

## **3. Performance Measures**

Please open this section and change the page status to Complete; then SAVE the page. Performance Measures will be identified and collected during post-award reporting rather than through this funding application process.”

## **4. Budget Detail**

Complete a project budget using the following categories. For each category used, enter a justification that describes how the items in that category will be used during the course of the grant period. It is important that you include specific details for each budget line item, including cost calculations.

Personnel: Provide salary information for non-contractual employees that will be funded through this grant, including overtime. List each position by title and name of employee, if available. Show the annual salary rate and the percentage of time to be devoted to the project. Compensation paid for employees engaged in grant activities must be consistent with that paid for similar work within the applicant organization. Only personnel costs of the agency applying for the grant funds should be included under “personnel.”

Employee Benefits: Employee benefits for grant-funded personnel include FICA, Unemployment Compensation, Health Insurance, etc. and amounts budgeted should be based on actual known costs or an established formula. Employee benefits are for the personnel listed in the budget and only for the percentage of time devoted to the project. Employee benefits on overtime hours are limited to FICA, Workers’ Compensation, and Unemployment Compensation.

Travel/Training: Any travel and/or training costs associated with the funded project. Only actual expenses will be reimbursed. All reimbursements will be at current state rates that are subject to change. Current rates for in-state travel at the time of this announcement include:

- Mileage: \$0.51/mile
- Lodging: Maximum \$70/night (\$80/night for Milwaukee, Waukesha or Racine County)
- Meals: \$8/breakfast (leaving before 6 a.m.); \$10/lunch (leaving before 10:30 a.m. and returning after 2:30 p.m.); \$20/dinner (returning after 7 p.m.); \$5/breaks

(Please note: Costs will only be reimbursed after submission of an event agenda and attendance list. Travel and training for contracted employees does not go in this section. These expenses should be itemized under “Contractual.”)

Supplies and Operating Expenses: Includes consumables such as paper, stationery, postage, and software. Also includes operating expenses such as rent and utilities. Show computations for all items. For example, Rent: \$150/mo x 12 months = \$1,800.

Indirect: Includes the indirect costs of an organization that are not readily assignable to a particular project, but are necessary to the operation of the organization and the performance of the project. The cost of operating and maintaining facilities, depreciation, and administrative salaries are examples of the types of costs that are usually treated as indirect.
